## **Disability Welfare 障害者福祉**

■The disability certificate (*Shogaisha Techo*) allows individuals with disabilities to easily access welfare services. There are three different types of disability certificates:

### ◆Physical Disability Certificate (*Shintai Shogaisha Techo*)

The Physical Disability Certificate is issued to individuals with impaired physical systems (such as vision, hearing, balance, voice, speech, mastication, and limbs) and impaired organ functions (such as the heart, kidneys, respiratory organs, bladder, rectum, small intestine, immune system, and liver). The impairment must be confirmed by a judging institution, which will classify the severity of the impairment from Grade 1 (most severe) to Grade 6 (least severe).

### ◆Developmental Disability Certificate (*Ryoiku Techo*)

The Developmental Disability Certificate is issued to individuals who first displayed symptoms of impaired mental function as a minor (usually before the age of 18). The impairment must be confirmed to meet certain criteria by a judging institution. The judging institution classifies the severity of the impairment in the form of A1 (most severe), A2 (severe), B1 (moderate), and B2 (mild).

### ◆Psychiatric Disability Certificate (*Seishin Shogaisha Hoken Fukushi Techo*)

This certificate is for people with a psychiatric impairment that causes limitations in daily and social living for a long period of time. The certificate has three classifications from Grade 1 (severe) to Grade 3 (mild). Those who wish to apply for the certificate must have received the initial diagnosis at least six months prior to applying.

## Lump-Sum Birth Allowance 出産育児一時金

Lump-sum birth allowance (up to ¥500,000 per child) will be provided for those who are enrolled in a national or employees' health insurance program. For more information, please contact your insurance company.

The national health insurance program of Tokushima City will provide ¥500,000 per child as its lump-sum birth allowance. The same benefits will be paid in the case of stillbirth or miscarriage if the woman was pregnant for 12 weeks or longer (a medical certificate signed by your doctor is required).

- Required materials
  - National health insurance card
  - Individual Number (*My Number*) card or notification card of the individual who gave birth ID of the person applying for the eligible applicant (e.g. Residence card, special permanent resident certificate, driver's license, etc.)
  - Document showing your bank account number  
(The bank account must be under the name of the individual who gave birth or the head of the household).
  - Seal (*inkan*) (only for those who wish to receive the allowance payment at the counter)
  - Maternal & child health handbook (*Boshi Kenko Techo*)
  - Receipt
  - Document showing your refusal of direct payment (issued by the hospital)

■ Sending your allowance directly to the hospital

If you intend to use this allowance to pay for the medical cost of your delivery, we can send your allowance within the limit of the lump-sum birth allowance directly to the hospital. Please contact the hospital if this is what you want to do.

※If your childbirth expense is within the limit of the allowance, you may receive the remaining balance at a later date.

※If you decline to send your allowance directly to the hospital, or if you give birth abroad, your allowance will be sent to you or the head of your family upon request.

### Education/Childcare Need Classification 教育・保育給付の支給認定について

Children can attend kindergartens, nursery schools, or other learning/care institutions for preschool education and/or childcare.

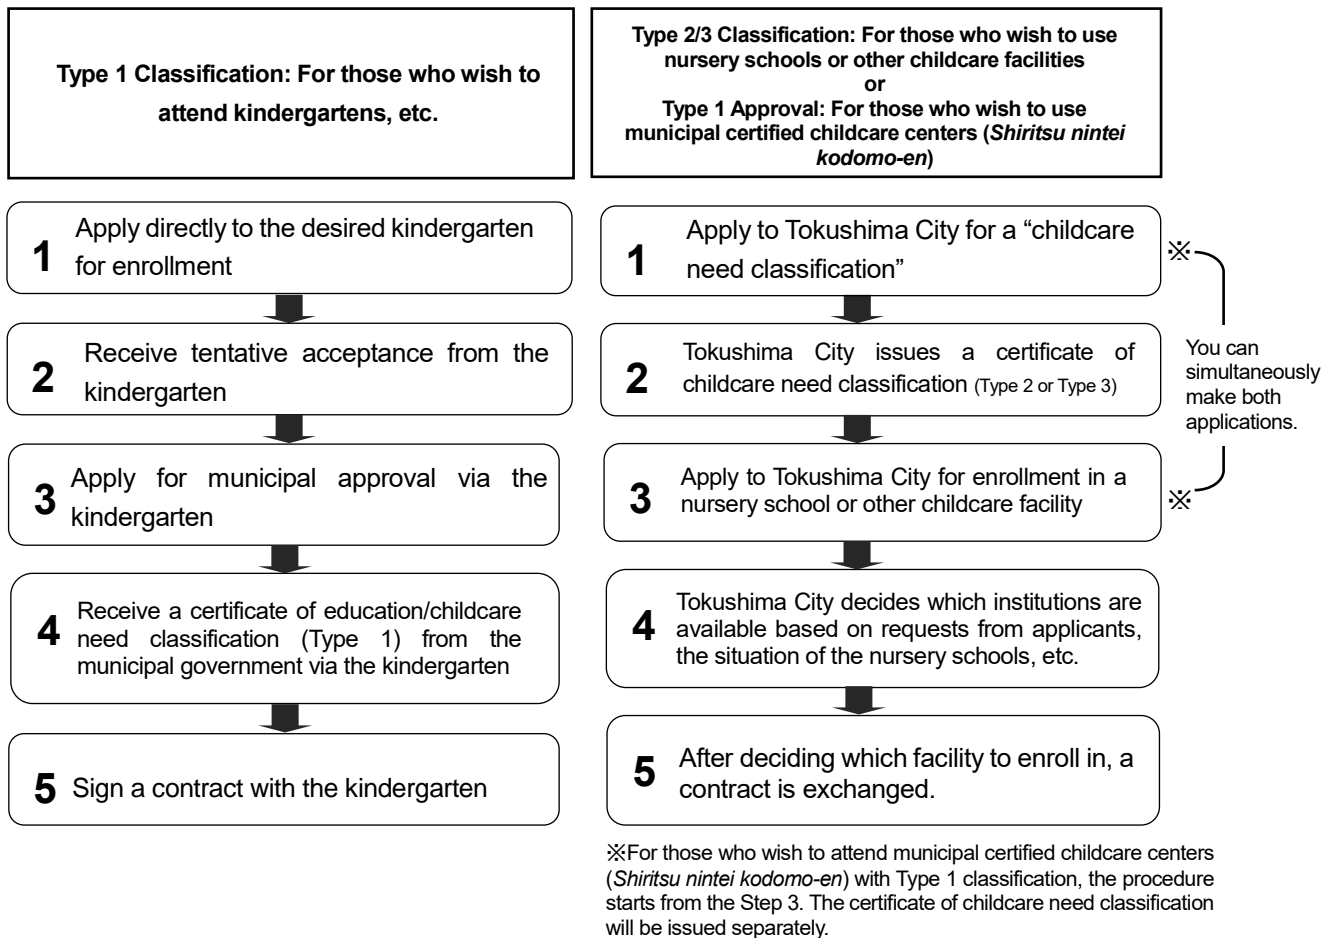

In order to enroll your child in kindergarten, nursery school, certified childcare center (*Nintei kodomo-en*), or municipal-level childcare service (*Chiiki-gata hoiku*) covered by the new childcare system, parents must receive municipal classification for education/childcare need.

There are three types of classification (Type 1-3) depending on the child's age and childcare needs. The type designated to your child will determine which facilities and times you are eligible to use.

	Facilities covered in the new system	Facilities not covered in the new system
Facility Category	<input type="radio"/> Kindergartens <input type="radio"/> Nursery schools <input type="radio"/> Certified childcare centers ( <i>Nintei kodomo-en</i> ) <input type="radio"/> Municipal-level childcare services ( <i>Chiikigata hoiku</i> )	<input type="radio"/> Private kindergartens (※1) <input type="radio"/> National kindergartens <input type="radio"/> Unlicensed childcare facilities <input type="radio"/> Childcare services inside businesses (※2)
Requirements	Classification education/childcare need from local municipality is necessary.	Classification for education/childcare need from local municipality is not necessary.
Selection Process	Tokushima City will decide which facility your child can attend (except for children with Type 1 classification).	Each facility directly conducts its own selection.
Childcare Fees	Fixed fees are designated by the municipality of residence.	Fees are determined by each childcare facility.

※1 Private kindergartens are allowed the choice to either enter the new system as specific education and childcare facilities (*Tokutei kyoiku hoiku shisetsu*) or to continue under the current private school subsidy system.

※2 The new system is not applicable to all childcare services inside businesses. The childcare services inside businesses removed from the new system are available exclusively for children of employees, while those wishing to participate in the new system will make them available for children of local residents as well as those of the employees.

## Education/Childcare Fees 教育・保育施設の保育料について

Childcare fees are based on the parents' municipal residence taxes. This tax amount is determined by the parents' income (both mother and father). (If the household is supported mainly by grandparents or another relative, nursery school fees may be based on the amount of municipal residence tax imposed on that relative.)

Childcare fees from April to August 2023 are calculated from the total amount of the municipal residence taxes imposed in fiscal year 2022 (based on the income of 2021) and fees from September 2023 to March 2024 will be determined by the total amount of municipal residence taxes imposed in fiscal year 2023 (based on the income of 2022).

### ※ Fee reduction for 2 or more children

When siblings from one household are attending childcare facilities at the same time, fees for the oldest child will be charged in full and fees for the second child will be charged at 50%. In addition to preschool age siblings attending or receiving services from nursery schools, kindergartens, certified childcare centers, municipal-based childcare services, or childcare services within businesses, this reduction is also applicable to those attending kindergarten at special needs schools or daycare at children's psychological treatment facilities, as well as those utilizing child development support or medical-based child development support programs. If you are using/enrolled in a facility **other than** a certified childcare facility or Tokushima City municipal kindergarten, you must also submit a certificate of enrollment from your facility. No nursery school fees are charged for a third child or for any subsequent children.

Individuals who aren't registered as Tokushima City residents as of January first of this year and have not submitted the municipal residence taxation certificate will pay a tentative estimated nursery fee. This also applies to individuals who have residency in Tokushima City, but who did not file taxes because they have no income or due to other reasons. Tentative estimated nursery school fees will be recalculated and charged after the municipal residence taxation certificate is submitted, or after municipal residence taxes are filed to the city (Residence Tax Division).

Actual education/childcare fees will be as follows:

	Income bracket	Type 3 Classification	
		0, 1 & 2 years old	
		Standard childcare	Shortened childcare
A	Households receiving public assistance	0 yen	0 yen
B	Households exempt from municipal residence tax	0 yen	0 yen
C	Households that pay the minimum municipal residence tax (but are exempt from income tax)	16,000 yen	15,700 yen
D1	Households with municipal residence tax based on income under 48,600 yen	19,000 yen	18,600 yen
D2	Households with municipal residence tax based on income under 57,700 yen	23,500 yen	23,100 yen
D3	Households with municipal residence tax based on income under 73,000 yen	23,500 yen	23,100 yen
D4	Households with municipal residence tax based on income under 77,101 yen	29,500 yen	28,900 yen
D5	Households with municipal residence tax based on income under 97,000 yen	29,500 yen	28,900 yen
D6	Households with municipal residence tax based on income under 133,000 yen	38,000 yen	37,300 yen
D7	Households with municipal residence tax based on income under 169,000 yen	44,500 yen	43,700 yen
D8	Households with municipal residence tax based on income under 301,000 yen	56,000 yen	55,000 yen
D9	Households with municipal residence tax based on income over 300,999 yen	59,000 yen	57,900 yen

■ About the exemption of education/childcare fees

Childhood education is viewed as an immensely important basis that is the cultivation of the lifetime development of a child's character. Considering this, the declining birthrate in Japan, and as a way to lessen the financial burden of education for children, facility use fees for children aged 3~5yrs old who are attending kindergartens, nursery schools, certified childcare centers (etc.) are free/no cost. In addition to this, the facility use fees for families with children aged 0~2yrs who are exempt from municipal tax will also be free/no cost.

Requirements for facility use fee exemption

Type of facility		Eligibility (age of children as of April 1 of applicable year)	Exemption amount (per month)
Licensed nursery schools, certified childcare centers, municipal-level childcare services (if using with type 2/3 Childcare Need classification)		Children aged 0~2yrs who are childcare need classified who are part of households exempt from municipal residence tax	Full exemption/no cost
		Children aged 3~5yrs who are childcare need classified	Full exemption/no cost
Kindergartens, certified childcare centers (if using with type 1 classification.)		Children aged 3~5yrs (includes children that are 3yrs old)	Full exemption/no cost
Private kindergartens (Kindergartens not classified under the "New Child and Child-rearing Support System")		Children aged 3~5yrs (includes children that are 3yrs old)	¥25,700
Naruto University of Education (affiliated) Kindergarten		Children aged 3~5yrs	¥8,700
Childcare Need classified children (Type 2/3)	After-hours childcare service at a kindergarten or certified childcare centers (kindergarten portion) (※1)	Children aged 3~5yrs who are childcare need classified	¥11,300 Days you use the service × standard service price per day (¥450)
Childcare Need classified children (Type 2/3)	Temporary childcare services at/through unlicensed nursery schools, care services for sick children, or at "Family Support Centers"	Children aged 0~2yrs who are childcare need classified who are part of households exempt from municipal residence tax	¥42,000
		Children aged 3~5yrs who are childcare need classified	¥37,000
Corporate-based childcare facilities (※2)		Children aged 0~2yrs who are childcare need classified who are part of households exempt from municipal residence tax	The standard/determined fee amount
		Children aged 3~5yrs who are childcare need classified	
Visiting care services for children with disabilities		Children aged 3~5yrs (for 3 years after the first April 1st that occurs after your child turns 3yrs)	Full exemption/no cost

Concerning exclusion of facility fees, generally, the location of the facility does not matter, but rather the address of the person who will use the facility. For those living outside of Tokushima City who wish to use a facility within Tokushima City, you must complete any fee exemption applications in the municipality you live in.

(※1) If you enroll your child into an extended childcare service at a kindergarten or certified childcare center (kindergarten portion) that only has type 1 classification services available but you qualify for classification 2 Facility Use Benefits and meet one of the following requirements, additional usage of an unlicensed childcare service (in addition to the extended childcare service) will be covered (in full or partially) by the fee exemption:

- ① The number of regular childcare hours plus the number of hours of weekday extended childcare provided is equal to less than 8 hours per day or
- ② The number of days that the kindergarten (etc.) you use is open is under 200 days a year.

However, in the above case as well, including usage of the extended childcare service at your child's facility, there is a limit of ¥11,300 for the exemption amount you can receive. (For households with 3yrs old children that are exempt from municipal resident tax, the monthly exemption limit is ¥16,300.)

(The following facilities allow for children using their extended childcare services to also use a separate facility for (additional) unlicensed childcare service use: public kindergartens (excluding Fukushima, Suketo, Kamona, Hachiman, Sensho, Kawauchikita and Kokufu kindergartens), public certified childcare centers, and the Naruto University of Education (affiliated) Kindergarten.)

**You must receive a “Childcare Need” classification from Tokushima City in order to qualify for facility use fee exemption for the 2 situations under the “Childcare Need classified children (Type 2/3)” section in the graph on the previous page. (Please reference page 17 for more information.)**

(※2) If you are an employees of the corporation that runs the corporate-based childcare facility that you wish to use, you do not need to complete a facility use application. If you are not one of these employees and are someone who lives in the area and wants to use one of these facilities, you must receive a “Childcare Need” classification. (Please reference page 17 for more information.)

#### ■ On Supplementary food Expenses

Regarding school lunch fees, provision of staple foods (such as rice) is the parent/guardians responsibility. (Cost of supplementary foods for those aged 0 – 2 years old (such as side dish) is covered by enrollment fees). In order to relieve fees from childhood education/childcare, childcare expenses for those aged 3 – 5 years old are waved, however school lunch fees are still the parent/guardians responsibility.

#### ■ Non-staple food fees at municipal nursery schools and certified childcare centers

The cost of non-staple food fees at any of Tokushima City's municipal/public nursery schools or certified childcare centers is as shown in the table below. (If you are enrolled in a private nursery school or private certified childcare center, please contact the facility directly for information on supplementary fee costs, as the costs will vary per facility).

#### ○Municipal nursery schools and certified childcare centers

Classification type	Type 1 classification	Type 2 classification
Cost	¥3,500	¥4,500

Furthermore, in the case that your household meets one of the following requirements below, you will be eligible for (full/partial) exemption from non-staple food fees.

○ Households eligible for non-staple food fee cost exemption

Exemption amount	Family/household situation
<b>Full exemption</b>	Households whose income-based municipal residence taxes are ¥57,699 or less. However, in the case of a single-parent households, the household's income-based municipal residence taxes may be ¥77,100 or less.
	Households with 3+ children where the first and second children are younger than elementary school age and are enrolled in a kindergarten or a certified childcare facility.
<b>Partial exemption (※1)</b>	Households other than the above with 3 or more children. (This exemption <b>only</b> applies to your third child (and any younger siblings if applicable).)
	Households with two children whose income-based municipal residence taxes are ¥211,200 or less where the 1 <sup>st</sup> child is younger than 18 years old and the 2 <sup>nd</sup> child is the one in need of Type 1 childcare classification.
	Households with two children whose income-based municipal residence taxes are ¥168,999 yen or less where the 1 <sup>st</sup> child is younger than 18 years old and the 2 <sup>nd</sup> child is the one in need of Type 2 childcare classification. (※2)

Note : Tax deductions other than adjustment-based deductions (foreign tax credit, dividend exclusion/tax credit, special tax deduction for housing loans and other similar liabilities, tax deduction applied to donations, tax deductions on equivalent amounts and capital gain from special stocks, etc.) are not considered when determining income-based portions of municipal residence taxes for non-staple food fee exemptions.

(※) : **The amount given for partial exemption is 4,500yen.** If the non-staple food fee for your facility **exceeds** this amount, you will have to pay the remaining costs.

### Determination of Childcare Need and Use of Nursery School or Other Childcare Facilities 保育の必要性の認定及び保育所等の利用について

To use the nursery schools or childcare facilities (under Type 2 or 3 classification), you must receive municipal determination for childcare need by satisfying one of the following conditions (Documentation to prove the need is required.):

- |  |   |
|--|---|
| ① Employment (at least 64 hours per month) | ⑥ Pregnancy/post birth  |
| ② Illness or disability                    | ⑦ Seeking employment/preparation for new business)  |
| ③ Caring for family member                 | ⑧ School/vocational training  |
| ④ Restoration from disaster                | ⑨ Continued enrollment during childcare leave (for children who have been attending a facility for a period of at least three months) |
| ⑤ Danger of domestic violence/abuse        | ⑩ Other deemed necessary by city  |

Childcare is provided as either standard hours that grants up to 11 hours of childcare or a shortened program that grants up to 8 hours of childcare, according to the situation of the parents/guardians. When your condition for admission is any of the following: ①Employment (less than 120 hours per month), ⑦Seeking employment or ⑨ Continued enrollment during childcare leave, the shortened childcare hours is generally provided.

■ Decision of availability of nursery schools and other facilities for children under Type 2 or 3 approval

Depending on the vacancies in the nursery school or childcare facility of choice, preference will be given according to a needs based assessment. Therefore, needs based classification does not guarantee admission.

※Children may be disqualified for childcare services due to false or inaccurate statements on submitted documents. Children may also be disqualified because of illness or inability to work in groups.

## School Life in Nursery/Certified Childcare Centers 保育所・認定こども園での生活

### ■ Childcare on Saturdays

Saturdays are taken off in rotation by staff at every nursery school and certified childcare center in Tokushima City in order to shorten their work time. There are therefore fewer childcare staff on Saturdays. If one of the child's parents or guardians is able to care for them on a Saturday, please have them care for your child at home, for the sake of service care availability as well as for increased quality time to spend with your child.

### ■ Food allergy

With medical certificates, municipal nursery schools and certified childcare centers can meet the needs of children who have food allergies. After talking about the matter with the child's parent(s), the food will be eliminated from his/her dish. But please remember that kitchen tools and the cooking process are shared. Private nursery schools have their own policies to deal with food allergies. Please contact them for further information.

## Childcare Services 保育サービス

### ■ Extension of childcare hours

Most nursery schools offer childcare beyond the regular childcare service hours so as to meet the needs of parents who have various working and commuting hours. Available hours and additional fees vary between nursery schools.

### ■ Temporary childcare service (*Ichiji Azukari Jigyo*)

Some nursery schools offer temporary or extraordinary circumstance childcare services to parents who are ill, injured, or hospitalized. This service is also available when parents need to attend a wedding/funeral or want to have a refreshing break from at-home childcare.

Fee ¥1,800 per day (including a fee for lunch)

### ■ Holiday childcare (*Kyujitsu Hoiku*)

Some nursery schools offer holiday childcare service to parents who have difficulty in looking after their children on Sundays and national holidays because of work or other reasons.

This service is provided at the nursery school where your child is enrolled for regular weekday childcare.

Fee is included in the basic nursery school fee (Additional fees are not charged for holiday childcare).

### ■ Childcare service for sick children (*Byoji Hoiku Jigyo*)

Some nursery schools and hospitals offer daycare service to parents who, because of work or other reasons, cannot take care of their children when they are sick and cannot go to group care. This service is available for children up to and including 6<sup>th</sup> grade of elementary school who live in Tokushima City.

Fee ¥1,800 per day (not including fee for lunch and snacks)

¥0 for families on welfare & residence-tax-free families

¥900 for families that pay the minimum municipal residence tax (but are exempt from income tax)

## ■ Admission to elementary & secondary (junior high) schools

- ◆ Education for foreign students  
Although the Japanese law does not include foreign students in compulsory education, Japanese elementary and secondary schools do accept foreign children. Your child is not obligated to attend a Japanese elementary or secondary school, but that doesn't mean that they don't have the opportunity to attend.
- ◆ School register  
Registered residents who will become school age the next school year will receive a school enrollment notification (*Nyugaku tsuchi-sho*) in early December. Parents are asked to fill out the enrollment form (*Nyugaku todoke*), which is sent to you with the school enrollment notification, and submit it to the designated school before the deadline. If parents do not wish to send their children to the designated schools, they do not need to submit the enrollment form.  
As for those who are registered as residents after November and wish to attend a public school, please come to our School Education Division (*Gakko Kyoiku-ka*) with your residence card (*zairyu card*) or foreign registration card.

## ■ Transfer schools

Foreign children who wish to continue studying after arriving in Japan can start school in the middle of the grade in Japanese public schools.

- ◆ How to register            Please come to our School Education Division (*Gakko Kyoiku-ka*) with your seal and residence card (*zairyu card*) or foreign registration card after completing the resident registration for your child at the Resident Registration Division (*Jumin-ka*).

## ■ School life support

- ◆ Japanese language assistance    Language assistance is available for Japanese returnee children and foreign children who attend municipal elementary/junior high schools and who are in need of linguistic support in their school life or study. Japanese language teachers are arranged upon application via school.
- ◆ Financial assistance        Costs for school supplies are assisted for parents/guardians who have difficulties in sending their children to schools due to economic reasons. Documents to show your income and other information are required for eligibility screening.

### How to Dispose of Household Garbage 家庭ごみの出し方

Tokushima City has implemented a garbage separating system that reduces household garbage and increases recycling as much as possible. Household waste should be divided into the following 8 categories. We appreciate your cooperation.

- |  |  |
|--|--|
| ①(Non-separated) burnable garbage..... Twice a week  | } ※For these 6 categories, days and sites for collection are designated according to residential districts. Please take your trash out before 8:30am on your collection day. |
| ②Non-burnable.....Once every 4 weeks on Wed.   |  |
| ③Plastic mark.....Once every 2 weeks on Wed.   |  |
| ④Cans, glass bottles, PET (plastic) bottles...Once every 2 weeks   |  |
| ⑤Newspapers .....Once every 4 weeks  |  |
| ⑥Magazines, cardboard, cartons .....Once every 4 weeks   |  |
| ⑦Over-sized garbage.....Arranged by mailing a request postcard or online application   |  |
| ※Request postcards for over-sized garbage collection are available at our Environmental Policy Division, Tobu/Seibu garbage disposal plants, or branch offices of city office. |  |
| ⑧Batteries & mercury thermometers.....   |  |
| ..... Put these items in a clear plastic bag and take it out on your over-sized collection day.  |  |
| Batteries are also collected at the recycle boxes set up in some municipal facilities by Tokushima City.   |  |

#### ※How to dispose of lighters, spray-cans and gas canisters

These items might cause fire in garbage collection cars. Please make sure to empty, puncture, and dent the item or mark the opened hole before putting them out. Additionally, when disposing of these items, discard each item in specifically separated garbage bags (bag with only lighters, bag with only spray cans/gas canisters) and don't mix these items in bags with other non-burnable garbage. (Please note you can only dispose of up to 5 lighters at once.)

#### ■ Garbage bags

When disposing of ①(Non-separated) burnable garbage, ②Non-burnable garbage, ③Plastic mark, and ④ Cans, glass bottles, and PET (plastic) bottles, please use a transparent or semi-transparent 45 liter plastic bag.

- Plastic bags must be clear enough to allow the inside items to be seen clearly.
- If the contents cannot be viewed through the garbage bag, then that bag will not be collected.
- As long as it is a transparent or semi-transparent plastic bag, the color and brand don't matter.
- Bags must be 45 liters or less.
- Bags are available at supermarkets, grocery stores, and so on.
- Plastic shopping bags from supermarkets etc. can be used as long as they are transparent.
- Food scraps and wastes which you don't want people to see, can be wrapped in paper or placed in a small non-transparent bag, and then contained together in a transparent bag.
- Please do not double-bag in disposing of ③Plastic mark and ④Cans, glass bottles, and PET (plastic) bottles.
- Please dispose of 5 or less garbage bags at a time (including bags with grass/weeds or wood).

#### ■ Notes

- Trash that is not properly separated or that is taken out on the wrong day will not be collected.
- Neighborhood associations and children's groups sometimes collect recyclable items, such as newspaper and magazines. Please take advantage of that opportunity!
- Please return returnable bottles such as beer bottles, milk bottles, and 1800cc-sized bottles for alcohol or vinegar, to the store where they were purchased whenever possible.

## Garbage that Tokushima City Does NOT Collect 収集・処理できないごみ

Large amounts of garbage cannot be collected all at once. If you are moving or cleaning out your house and getting rid of a lot of things like furniture and cardboard boxes, it cannot be collected by our municipal service. For this type of garbage, please separate it into the 8 categories described in the garbage collection guide, and follow the directions of either (1) or (2) below. You will be charged for the collection service.

(1) Take it to one of the facilities below. (Please contact the facility in advance)

- (Non-separated) burnable garbage (excluding recyclable paper)
  - ◆Tobu (East) garbage disposal plant (*Tobu Kankyo Jigyosho*)  
43-1 Motohari, Ronden-cho TEL: 088-662-0941
  - ◆Seibu (West) garbage disposal plant (*Seibu Kankyo Jigyosho*)  
18-1 Aza-Kuwazoe, Kita-Iwanobu, Kokufu-cho TEL: 088-642-8402
- Non-burnable and other types of garbage
  - ◆Sanko Corp. 26-20 Takara, Iitani-cho TEL: 088-645-2198
  - ◆Sanko Clean Service Center Corp. 30 Yamane, Johroku-cho TEL: 088-645-1966

(2) Ask a licensed garbage disposal company to take your garbage.

## Law for Recycling Specific Kinds of Home Appliances 家電リサイクル法

This law says that specified electric home appliances (air conditioners, TV sets, refrigerators, freezers, washing machines, and dryers) must be collected and recycled appropriately when they are disposed of.

You will be charged when disposing of these items.

Below is an example of fees (without tax) for recycling major electric appliances

¥900 to ¥1,819	for an air conditioner
¥3,400 to ¥5,090	for a 170-liter (or less) refrigerator / freezer
¥4,300 to ¥5,590	for a 171-liter (or more) refrigerator / freezer
¥1,200 to ¥3,048	for a 15-inch (or less) TV
¥2,200 to ¥3,364	for a 16-inch (or more) TV
¥2,300 to ¥3,000	for a washing machine / clothes dryer

### ■ Ask retailers for collection

- ◆ Ask the retailer where you originally purchased the item to collect it.
- ◆ Ask the retailer where you are purchasing a replacement to collect the item.
- ◆ When you are unable to get the assistance of a retailer, ask any shop on the Tokushima Electrical and Commercial Association list (*Denki Shogyo Kumiai*). For information about these shops, please call the association at 088-653-0373.

Consumers are required to pay the recycling and moving fee. Retailers will send the appliances to the manufacturers, and the manufacturers will recycle them. (Fees vary with companies and shops. Contact retailers for details.)

### ■ Move the items by yourself

- ① Confirm the maker or company of the item that you are disposing of.
- ② Pay the fee for recycling at a post office. (You will be charged another fee for sending money.)
- ③ You will receive a "recycle ticket" in exchange for the fee. Attach the ticket to the item.
- ④ Transfer the item to the designated collection spot.

For Inquiries >> Environmental Policy Div. (*Kankyo Seisaku-ka*) TEL: 088-621-5217 FAX: 088-621-5210

## Recycling Computers 家庭用パソコンのリサイクル

Under the administrative law, PC makers are required to take their used products back from consumers.

We do not collect computers as garbage in our municipal service. Please cooperate with the maker of your computer for collection and recycling.

※Note Because the laws are different, the collection process for used computers is different from that for the specified home appliances stated above.

### ■ Items designated by the law of recycling PCs

PC hard drives	Liquid crystal PC monitors (incl. unit type)
Laptops	Cathode-ray tube PC monitors (incl. unit type)

### ■ Where apply to recycle your computer

PC maker's pick-up center/counter

(In the case that the maker has gone out-of-business/is not in operation, please contact the PC3R Promotion Association TEL: 03-5282-7685)

For Inquiries >> Environmental Policy Div. (*Kankyo Seisaku-ka*) TEL: 088-621-5217 FAX: 088-621-5210

## Owning a Dog 犬を飼うときは

If your dog is 91 days old or older, pet registration and rabies vaccination are required. Registered dogs must have a rabies shot every year. Registration and vaccination can be done every spring (Apr. to May) and autumn (Oct.) at several locations throughout the city, which are run by the Tokushima Prefectural Animal Welfare Center and Vets' Association. The registration fee is ¥3,000, and the fee for vaccinations is also ¥3,300.

Dogs not fitted with a microchip, or those with no registration or vaccination tags on their collars are caught and treated as stray dogs. Be sure to keep your dog on a leash, or it may cause danger.

Once you get a pet, please be responsible for looking after it for its whole life.

## Seal Registration (*Inkan Toroku*) 印鑑登録

Seal registration enables you to use your personal seal (*Inkan* or *Hanko*) to verify official documents. In Japan a personal seal is used like a signature.

The application for seal registration should be made out to our Resident Registration Div.

### ■ Apply in person

If you bring all of the necessary items with you in person, then you can complete your registration and receive your seal registration card on the same day.

◆ Requirements	<ul style="list-style-type: none"> <li>▪ Seal that you wish to register (that aligns with either your first name or surname or both as it appears on your resident registration)</li> <li>▪ ID with your photo issued by Japanese authorities (Residence card, special permanent resident certificate, driver’s license, passport, Individual Number (<i>My Number</i>) card, etc.)</li> </ul>
----------------	--

### ■ Apply by proxy

When it is impossible to apply in person under unavoidable circumstances, application by proxy is accepted.

After the application, we will send a letter of inquiry to your registered address in order to confirm your identity, and to confirm that you really intended to register your seal.

At the second visit to our office with the necessary items, your seal registration will complete.

※ Your seal registration certificate can be issued on the day of your second visit, but please be advised that it may take several days for your registration to be completed because we must confirm your identity by mail.

◆ Requirements	
<at the first visit>	<ul style="list-style-type: none"> <li>▪ Letter giving authority of the proxy to represent (written by the person who wishes to register his/her seal)</li> <li>▪ Seal that he/she wishes to register(that aligns with either your first name or surname or both as it appears on your resident registration)</li> </ul>
<at the second visit>	<ul style="list-style-type: none"> <li>▪ Letter of inquiry (written by the person who wishes to register his/her seal)</li> <li>▪ Seal that he/she wishes to register(that aligns with either your first name or surname or both as it appears on your resident registration)</li> <li>▪ ID material of his/her proxy (Driver's license, health insurance card, etc.)</li> </ul>

■ Seal registration card (*inkan toroku-sho*)

A seal registration card will be issued to those who have registered their seals. If you need a seal registration certificate, please bring your seal registration card or Tokushima citizen card (the previous “seal registration card”). Without one of these cards, a seal registration certificate cannot be issued. If you lose your card, you have to re-register your seal.

For Inquiries>>Resident Registration Division (*Jumin-ka*) TEL: 088-621-5134

**Resident Certificates 証明書の発行**

There are various types of resident certificates. For details, please contact the Issue Section of the Resident Registration Division (*Jumin-ka Sakusei-gakari*,) at 088-621-5140.

Fee ¥350 for each certificate (Copy of residence record, seal registration certificate, certificate of registered matters on residence record, or some kinds of tax certificates)

For Inquiries>>Resident Registration Division (*Jumin-ka*) TEL: 088-621-5140

**About the Removal of the Automated Certificate Delivery Machine**

**証明書自動交付機サービス終了について**

As Tokushima City's automated certificate delivery machine started to deteriorate and the maker of the machines no longer makes the machines, we removed the machine from the city hall at the end of September 2019. In order to receive certificates, please use the delivery machines at convenience stores with your Individual Number (*My Number*) card.

◆Note◆

The “Tokushima citizen card” will still be an important card in the future.

The “Tokushima citizen card” is a card that proves that you have registered your seal in our city. In the future as well, in order to receive seal registration certificates at the city hall or to complete a “seal registration change” procedure, you will need this card, so please keep it somewhere safe.

For Inquiries>>Resident Registration Division (*Jumin-ka*) TEL: 088-621-5140

**Certificate Issuance Service at Convenience Stores 各種証明書のコンビニ交付サービスについて**

With your “Individual Identification (*My Number*) card,” you can have official certificates such as resident records and seal registration certificates issued through multi-functional copy machines installed at convenience stores, etc.

■Eligibility

## Disaster Preparedness

Japan usually gets hit with a few typhoons between July and October every year. Because of global warming, strong, violent typhoons that may result in a lot of damage all over the country are becoming more common.

Almost every year, Tokushima City incurs some damage from strong winds or severe rain because of its location along the common route of typhoons. In addition, there is a strong possibility (70-80%) that we will be hit by a big earthquake within the next 30 years.

Be prepared for such disasters well in advance and think about what to do in the case of a disaster.

## Storms and Floods 風水害

### ①Typhoons and tropical cyclones

A tropical cyclone is a huge circulation of air that develops and grows over the warm sea. Tropical cyclones near the Philippines can change into a typhoon when they gain a force of more than 17.2 meters per second wind speed. Typhoons hit Japan mostly in the summer and at the beginning of autumn. When a typhoon is approaching, please watch out for tidal waves, violent wind, and heavy rain.

### ②Local downpour

Local downpour is a heavy rainfall that starts suddenly and stops in a short time only in a small area. This is most likely to occur around the end of the rainy season, but it is relatively difficult to tell when and where there will be this type of downpour. It can cause floods, landslides, and other damage.

### ③Flooding in city areas

Most rainwater flows into drainage channels on the side of the road in city areas where a large part of the land is covered in asphalt or concrete. This condition causes city areas to be more prone to flood damage after a local downpour even if the rain only lasts for a very short time. Because flooding is so unpredictable, please evacuate as soon as possible in such an event. If you are in the basement during a local downpour, late evacuation may claim your life because basements flood easily.

## The Nankai Trough Earthquake 南海トラフの地震

Japan is one of the most earthquake-prone countries in the world.

The Nankai Trough Earthquake is expected to be one of the biggest earthquakes to strike Japan. Tokushima City is predicted to be damaged heavily when it strikes. Be prepared for such an earthquake, stay informed about such disasters, and learn how to evacuate when there is danger of a tsunami. Please identify your emergency evacuation sites and high ground evacuation sites designated by Tokushima City, and make sure you know how to get to them. (Refer to Appendix 1: List of Designated Emergency Evacuation Sites.)

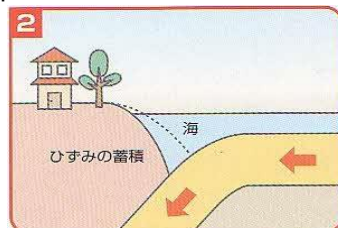

### ①How an earthquake happens

Most earthquakes happen as the result of movements within the earth's crust.

How an inter-plate (trench type) earthquake occurs:

The oceanic plate in a trench descends slowly under the continental plate by a few centimeters per year.

This movement pulls the edge of the continental plate down. The elastic strain energy around the plate boundary increases over time.

When the stress reaches its limit, the continental plate springs up, causing an earthquake. This movement may also cause a tsunami.

②Damage caused by earthquakes

There may be large-scale damage such as buildings collapsing or cracks in the road. Earthquakes also often cause fire, tsunami and other damage.

When a big earthquake strikes, essential services, such as electricity, water, gas, communication services, and transportation, may not be accessible. After a disaster, it is possible that you may have to live in this condition for an extended period of time.

③Earthquake measuring (on the Japanese scale) & estimated damage

Seismic intensity	Supposed damage and situations
Level 0	Nobody can feel tremors.
Level 1	Some people can feel tremors indoors.
Level 2	Many people can feel tremors indoors. Hanging items, such as lampshades, swing slightly
Level 3	Almost all people can feel tremors indoors. Dishes in cupboards clatter.
Level 4	People may feel very frightened. Hanging items swing back and forth, dishes in cupboards clatter, and unstable items fall down.
Level 5 low	Unstable items fall down, and windows may break.
Level 5 high	TV sets may fall down. Concrete walls that are not reinforced fall over. Tombstones fall apart.
Level 6 low	In some buildings, walls, tiles, and windows come down. Some wooden buildings with a low level of earthquake-proof construction may collapse. The ground cracks and mountains landslide.
Level 6 high	In many buildings, walls, tiles, and windows come down. Some concrete buildings with a low level of earthquake-proof construction may be destroyed. The ground cracks and mountains landslide.
Level 7	Even buildings with earthquake-resistance are in danger of destruction. Large cracks, gaps in the ground, and landslides may cause topographical changes.

④Earthquake preparedness

- Check the condition of your concrete walls, and identify objects that might be in danger of falling on the roads you use regularly.
- Keep a fire extinguisher.
- Secure furniture and other objects with braces to prevent them from toppling.
- Keep at least 7 days' worth of food and water stocked. (An average person needs 3 liters of water a day.)
- Prepare your own emergency bag.

⑤Emergency bag (Refer to Appendix 2: Checklist for Emergency Kits.)

- An emergency bag should include all of the necessary items, but should be compact and light enough to be carried easily in the event of an evacuation.
- The best kind of emergency bag is a backpack which enables your hands to be free.
- Each family member should have his/her own emergency bag.

## When a Major Earthquake Strikes 大地震が発生したとき

### ① If you are indoors

#### House

- Take cover under a sturdy table.
- Do not walk without shoes because there may be broken glass that can hurt you.
- Turn off gas appliances and use the circuit breaker to shut off your electricity.

#### Department store, etc.

- Protect your head with your bag or whatever you can find.
- Keep away from show windows and glass, shelter by thick walls.
- Follow the staff's directions.

#### Office building

- Take cover under a desk.
- Be careful of large racks and office appliances that may fall.

#### Apartment

- Open the door or windows to assure you of an exit.
- Do not use the elevator. Use the stairs to evacuate.

### ② If you are outdoors

#### Street

- Evacuate to a nearby park or square. Be sure to protect your head.
- Be careful of glass or signs that may fall.
- Keep away from buildings, concrete walls, and vending machines.

#### Driving a car

- Grip your steering wheel tightly and slow down.
- Pull over to the left side of the road and stop your engine.
- If you must evacuate without your car, please leave the key in the ignition.

#### Train or bus

- Hold onto a strap or hand rail tightly with both of your hands.
- Do not rush out of the vehicle on your own. Follow the directions of the driver or staff.

### ③ If a tsunami happens

A tsunami is expected to come after the Nankai Trough Earthquake. According to experts, the biggest wave (up to 5 m high) will reach the east end of Higashi Okinosu Marine Pier within 53 minutes of the earthquake. Check the tsunami and earthquake hazard map of Tokushima City, and be alert especially if you live in or near an at risk area. When a tsunami is imminent, evacuate immediately and go to the designated emergency evacuation site or to higher ground.

#### Note

- Immediate evacuation to a higher location is much better than trying to outrun the tsunami to a location farther away.
- Move away from the shore as quickly as possible.
- Tsunami speed is expected to be about 25 kilometers per hour near the coast, so there is no assurance of safety if you start evacuating after realizing that the tsunami is coming.
- Tsunami waves will come repeatedly.
- Check the locations of designated emergency evacuation sites and higher ground evacuation sites to insure your safety.

## Signs concerning tsunami

【Tsunami-prone area】

【Evacuation site from tsunami】

【Evacuation building from tsunami】

These signs are designed by the Fire and Disaster Management Agency of the Ministry of Internal Affairs and Communications, so that everybody, not only residents but also tourists, can easily understand what they say. You can find these signs around our city.

## 《Tsunami Warning》

When a major earthquake occurs and disastrous waves such as those produced by the Great Eastern Japan Earthquake are expected, the Japan Meteorological Agency will issue a Major Tsunami Warning with the estimated tsunami height of either “<sup>きよだい</sup>巨大 *kyodai* (huge)”, or “<sup>たか</sup>高い *takai* (high).” If you receive a warning that says “<sup>きよだい</sup>巨大 *kyodai* (huge)” or “<sup>たか</sup>高い *takai* (high)”, evacuate immediately to the closest and safest higher ground evacuation site you can find. In some cases you may not hear such an announcement, but if you feel strong shaking for an extended period of time, use your own judgment and immediately evacuate to a safer place such as a designated emergency evacuation site or higher ground.

## How to Evacuate When Disaster Strikes 災害時の避難方法

### Large Scale Earthquake Strikes

#### < If you are not in a hazard area for tsunami or flood >

- ① Remain calm and protect yourself from falling objects.
- ② Stay where you are until the shaking stops. Then evacuate to a park or square with your emergency bag.
- ③ If your house is in danger of collapsing or of a secondary disaster, evacuate to your designated evacuation center.
- ④ Get in touch with your family and friends to see if they are okay.

#### < If you are in a hazard area for tsunami or flood >

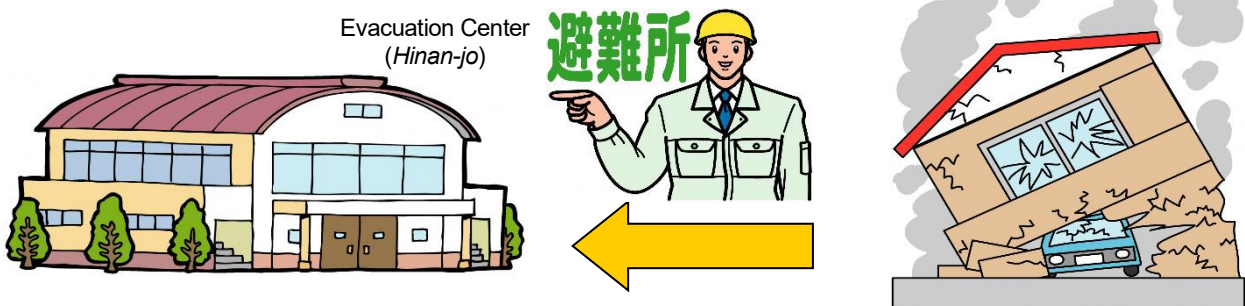

- ① Remain calm and protect yourself from falling objects.
- ② Stay where you are until the shaking stops. Then evacuate from the hazardous area with your emergency bag. If you cannot make it, rush into a tall building. If possible, go to a designated evacuation building from tsunami.
- ③ Tsunami waves will come repeatedly, so stay at higher ground until the tsunami warning is canceled.
- ④ If your house is in danger of collapsing, evacuate to your designated evacuation center and please wait until Tsunami and other such warnings are lifted and the safety of your area is confirmed before returning.
- ⑤ Get in touch with your family and friends to see if they are okay.

## Life in Evacuation 避難生活

The *Hinan-jo* (Evacuation Center) is a facility that provides first aid, rescue, and information after safety from the disaster has been confirmed. People whose houses were damaged by the disaster can temporarily live at an evacuation center. (Refer to Appendix 3: List of Designated Evacuation Centers and Secondary Evacuation Centers.)

### When to Use the Evacuation Center

1. Your residence was damaged and you cannot live there anymore.
2. Your residence is in danger of damage.
3. Your residence is in danger of collapse by aftershocks.
4. Your residential area is isolated by the disaster and you joined a group evacuation.
